

The background is a textured brown paper. Overlaid on this are various black line-art shapes. These include elongated rounded rectangles, circles with a small notch at the top, and more complex, angular shapes that resemble stylized letters or abstract forms. The shapes are scattered across the page, creating a busy, patterned effect.

# Hello.

We are Kata Font and Péter Molnár, owners of STUDIO FONT. Our husband and wife designer duo works on the principles of marrying function with looks, resembling abstract art. We create home accessories and furniture to stun and inspire, objects that speak the language of an abstract artwork and open the door for a contemporary artistic atmosphere in the space. We have an unrelenting passion to find poetry in mundane, everyday objects that inspire our unique design language. The geometric shapes and choice of genuine materials draw inspiration from constructivist artists and modern architecture. We love playing with basic geometric forms to bring an artistic impact for everyday homes too.
